

3COM

3Com is a leading global provider of enterprise and small-business networking solutions that help organizations achieve their business and networking objectives. The company has had a major impact on computer networking since the creation of Ethernet in the 1970s. 3Com's mission is to provide customers worldwide with **high quality, low-cost networking infrastructure solutions** that enable the **convergence of applications and emerging technologies *into*** the network.

In 2007, 3Com extended its leadership position in the networking industry by acquiring 100 percent ownership of its former China-based joint venture, H3C Technologies Co., Limited (H3C). With the addition of H3C, 3Com has annual revenue of \$1.3 billion (FY07 year ended June 3, 2007) and more than 6,000 employees (FY07) in over 40 countries.

Based in Massachusetts, USA, 3Com prides itself on its history of innovation as well as its technology and engineering prowess. The company leverages its more than 2,700 world-class engineers to build industry-leading solutions for its customers. Additionally, 3Com has more than 1,400 U.S. and nearly 50 Chinese issued patents, more than 200 pending Chinese applications as well as pending applications for 10 separate inventions outside of China that cover a wide range of networking technologies.

To increase sales and win new business in today's highly competitive markets it requires dedicated and exceptional service. Offering customers true value for their money, and helping them make the best choices using new and emerging technologies will win long and trustworthy relationships.

3Com University has designed a certification program that will help distinguish individual's skills in developing solutions using industry and 3Com product knowledge. The 3Com Certification Program provides you with high levels of expertise, knowledge, and a rich understanding of current technologies and trends.

Bridge the gap between technology and you and you will drive your business results in the right direction.
