

IBM Certified Associate Developer - Lotus Notes and Domino 6/6.5

Acronym/Nickname		Certification Body IBM	
Description Lotus highly recommends using a variety of resources to prepare for certification exams. In all cases, you must start with the exam guide to determine which tasks will be covered on the exams. Equally as important, actual hands-on experience is required. From there, we recommend that you choose from the following preparation options. During your preparation, it is important that you review the exam guide periodically to make sure that all of the material in the exam guide is covered in your choice of preparation methods. It should be noted that there is not a one-to-one correspondence between these preparation methods and the exam.		Certification Level Covered competencies Students learn the foundation skills required to use Domino 6 Designer design elements to create Domino 6 applications. By the end of the course, students should be able to design, develop, and deploy a single-database IBM Lotus Domino 6 application. Requirements Exam 610: Notes Domino 6/6.5 Application Development Foundation Skills
