

# IBM Certified System Administrator - IBM WebSphere Portal V5.1

## Acronym/Nickname

## Certification Body

IBM

## Description

Lotus highly recommends using a variety of resources to prepare for certification exams. In all cases, you must start with the exam guide to determine which tasks will be covered on the exams. Equally as important, actual hands-on experience is required. From there, we recommend that you choose from the following preparation options.

During your preparation, it is important that you review the exam guide periodically to make sure that all of the material in the exam guide is covered in your choice of preparation methods. It should be noted that there is not a one-to-one correspondence between these preparation methods and the exam.

## Certification Level

### Covered competencies

1. Can plan, install and configure implementations of IBM WebSphere Portal V5.0.
2. Can cover areas such as architecture, security, integration with LDAP or custom user registries, and connections to back-end applications.
3. Will know about administering users and groups, administering portlets and pages, and implementing themes and skins, via both graphical and command-line tools.

### Requirements

IBM WebSphere Portal V5.1, Deployment and Administration Exam Competencies (Exam 397)

## Target

IBM Business Partners and IT professionals

## Career Path

IBM Certified Application Developer - IBM Lotus Component Designer 6	Test 846: Creating Application Components Using IBM Lotus Component Designer 6
IBM Certified Solution Developer - IBM WebSphere Portal V6.0	Test 829: IBM WebSphere Portal 6 Application Development
IBM Certified System Administrator - IBM WebSphere Portal V6.0	Test 825: IBM WebSphere Portal 6 Deployment and Administration
