

# IBM Certified Solution Designer -- Rational Performance Tester

## Acronym/Nickname

**Certification Body**  
IBM

## Description

An intermediate level solution designer is an individual with extensive product knowledge who understands how to use the IBM Rational Performance Tester tool to validate the performance, scalability and reliability of Web-based, SAP, Siebel, or Citrix hosted systems. This person is proficient in creating dynamic tests, developing workload schedules for various performance and load testing scenarios, execute tests with both small and large loads, and evaluating resulting data to measure, analyze and pinpoint factors that affect system performance and other related issues before deployment.
