

IBM Certified Advanced Deployment Professional - Tivoli Storage Management Solutions 2007

Acronym/Nickname

Certification Body
IBM

Description

An IBM Certified Advanced Deployment Professional - Tivoli Storage Management Solutions 2007 is an individual who has demonstrated a higher level of implementation knowledge and skill both in breadth and in depth in the IBM Tivoli Storage Management solutions area.

Certification Level Professional

Covered competencies

Successful Candidates must have

Demonstrated a higher level of implementation knowledge and skill both in breadth and in depth in the IBM Tivoli Storage Management solutions area.

Requirements

This certification requires 3 test(s).

Test(s):

1. Any 1 of the following tests:
 - a. Test 799 - IBM Tivoli Storage Manager V5.3 Implementation
 - b. Test 899 - IBM Tivoli Storage Manager V5.4 Implementation
2. Any 2 of the following tests:
 - a. Test 252 - IBM WebSphere Application Server Network Deployment V6.0 Core Administration
 - b. Test 731 - DB2 9 DBA for Linux UNIX and Windows
 - c. Test 900 - IBM Tivoli TotalStorage Productivity Center V3.1

Target

IBM Certified Advanced Deployment Professional

Recommended/Preparatory Training

Course title: IBM Tivoli Storage Manager 5.4 Implementation and Administration Part One

Course duration: 5.0 Days

Course number: n/a

Abstract: This 5-day instructor-led course provides hands-on practice in implementing and administering a data management strategy with IBM Tivoli Storage Manager 5.4. The course begins with installing the IBM Tivoli Storage Manager 5.4 server and backup-archive client, on the Integrated Solution Console Administration Center. Students create and configure hierarchies of storage pools and define policies to manage the flow of data from disk to disk or tape media. The back up and restore of client data, as well as performing long-term and offsite data management through archiving and retrieving of client data, is discussed and practiced. Finally, students will protect their IBM Tivoli Storage Manager server by automating the backup and restore of the IBM Tivoli Storage Manager databases and storage pools from offsite data storage pools.
