

Microsoft Certified Solution Developer for Microsoft .NET

Acronym/Nickname

MCSD

Certification Body

Microsoft

Description

The Microsoft Certified Solution Developer (MCSD) for Microsoft .NET credential is the top-level certification for advanced developers who design and develop leading-edge enterprise solutions using Microsoft development tools and technologies in addition to the Microsoft .NET Framework 1.0 and Microsoft .NET Framework 1.1.

Certification Level

Covered competencies

The MCSD for Microsoft .NET credential is appropriate for professionals who design and develop leading-edge enterprise solutions with Microsoft development tools, technologies, platforms, and the Microsoft .NET Framework. The MCSD job role includes analyzing business and technical requirements, and defining the solution architecture, as well as the tasks typically conducted by MCADs—implementing the requirements and building, deploying, and maintaining the solution. We expect candidates to have at least two years of experience in a lead-developer job function.

Requirements

MCSD candidates must pass four (4) core Exams listed below and One Elective exam:

- 1) One Web Application Development (70-305 or 70-315) exam
- 2) One Windows Application Development (70-306 or 70-316) exam
- 3) One Web Services and Server Components Development (70-310 or 70-320) exam
- 4) One Solution (70-300) Architecture

Target

Career Path

- Software Engineer
- Application Analyst
- Software Application Developer
- Technical Consultant
