

Microsoft Certified IT Professional: Database Developer Certification

Acronym/Nickname

Certification Body

Microsoft

Description

Microsoft Certified IT Professional: Database Developer certification demonstrates that you can design a secure, stable, enterprise database solution by using Microsoft SQL Server 2005.

The MCITP: Database Developer credential is part of the new generation of Microsoft certifications, which separates validation of technology and professional skills, providing a more relevant, flexible, and cost-effective way to validate core technical, professional, and architectural skills.

Certification Level

Professional

Covered competencies

Database developers design and implement relational database models (logical and physical) and database storage objects. They also program servers by using user-defined functions, triggers, stored procedures, Transact-SQL, or the CLR. They retrieve or modify data using SQL queries or tune and optimize queries.

Requirements

MCTS candidates must pass three exams:

- 1) One Microsoft Certified Technology Specialist (MCTS) prerequisite exam (70-431)
- 2) Two Professional Series exams (70-441 to 442)
