

Microsoft Certified Professional Developer: Web Developer

Acronym/Nickname
MCPD: Web Developer

Certification Body
Microsoft

Description

The Microsoft Certified Professional Developer: Web Developer (MCPD: Web Developer) certification demonstrates that you have the comprehensive skills that are required to build interactive, data-driven Web applications that use ASP.NET 2.0 for both intranet and Internet uses.

Certification Level Professional

Covered competencies

Candidates should have at least two years of experience developing Microsoft Windows or Web-based applications by using the Microsoft .NET Framework. Candidates should have a working knowledge of Visual Studio 2005.

An enterprise application developer can operate as a Microsoft Windows-based or Web-based client application developer and can develop middle-tier data or business logic components. Candidates should have at least three to five years of on-the-job experience dedicated to enterprise application development.

Candidates should have worked in the following phases in the application life cycle:

1. Technical envisioning and planning
2. Design and development
3. Stabilizing and releasing

Candidates should be able to design and develop the Web interface of common business applications, such as:

1. Web-based client applications, both intranet and Internet, that may connect to data stores or middle-tier business logic
2. Data-oriented applications that provide data entry, data analysis, and reporting capabilities
3. Workflow and communication applications

Requirements

MCPD candidates must pass the MCTS prerequisite (70-536 or 70-528) exams and PRO: Designing and Developing Web Applications by Using the Microsoft .NET Framework (70-547) exam.
