

Microsoft Certified Systems Administrator on Windows Server 2000 (Experienced in IT)

Acronym/Nickname

Certification Body

Microsoft

Description

The Microsoft Certified Systems Administrator (MCSA) certification will advance your career by ensuring that you have the skills to successfully manage and troubleshoot system environments running on the Microsoft Windows operating system.

Certification Level

Covered competencies

The MCSA credential is for professionals who implement, manage, and troubleshoot existing network and system environments that are based on the Microsoft Windows Server 2000 operating system. An MCSA candidate should have 12 months of experience working with a desktop operating system, a network operating system, and an existing network infrastructure.

Requirements

MCSA candidates must pass three core exams listed below:

1. Managing a MS Windows Server 2000 Network Environment (70-218)
2. Installing, Configuring, and Administering MS Windows 2000 Server (70-215)
3. Installing, Configuring, and Administering MS Windows 2000 Professional (70-210)

And one elective (70-216) exam
