

## Microsoft Certified Systems Administrator Security on Microsoft Windows 2000

### Acronym/Nickname

### Certification Body

Microsoft

### Description

The Microsoft Certified Systems Administrator (MCSA) Security which will allow systems administrators to demonstrate deep, role-based skills around implementing, managing, and maintaining security on the Windows 2000 and Windows Server 2003 operating systems to help create a secure computing environment.

### Certification Level

#### Covered competencies

The MCSA Security certification will allow IT professionals to demonstrate security-specific skills that are appropriate to the systems administrator job role, which includes implementing, managing, and maintaining security on Windows 2000. Additionally, this certification will allow individuals to show proficiency with Microsoft Internet Security and Acceleration (ISA) Server 2000, Enterprise Edition, or demonstrate security skills beyond the Microsoft platform by achieving CompTIA Security+ certification. An MCSA: Security candidate should have at least 12 months of experience implementing and administering desktop and network operating systems, and managing the network infrastructure in the typically complex computing environment of medium-to-large organizations. The candidate should also have experience in implementing and administering security in a network infrastructure. Additionally, the candidate should have a broad foundational knowledge of general security concepts, including communications security, infrastructure security, cryptography, and operational and organizational security—or else they should have specific skills that are related to the implementation of Microsoft Internet Security and Acceleration (ISA) Server 2000 in an enterprise environment.

#### Requirements

MCSA candidates must pass three core exams listed below:

1. Two Networking System (70-215 and 70-218) exams
2. One Client Operating System (70-210, 70-270, or 70-620)

And two Security Specialization (70-214, 70-227, 70-350 OR CompTIA Security+) exams

### Target

### Career Path

- System Administrator

### Authorized Testing Center:

Prometric

### Indicative Fee\*

400 USD

### Certification Schedule\*\*

\* Fees are exclusive of VAT and wire transfer fee
