

Microsoft Certified Systems Engineer Messaging on MS Windows Server 2003

Acronym/Nickname

Certification Body

Microsoft

Description

The MCSE credential requires individuals to demonstrate a breadth and depth of skills that are related to designing and implementing a Windows Server 2003 infrastructure. Microsoft also offers elective exams that allow MCSEs to validate specific messaging skills on these platforms.

Certification Level

Covered competencies

The MCSE 2003 credential will allow systems engineers to demonstrate deep, role-based skills around designing, planning, and implementing a Microsoft Exchange messaging infrastructure on the Windows operating system. An MCSE: Messaging candidate should have at least two years of experience implementing and administering desktop and server operating systems, and designing a network infrastructure in the typically complex computing environment of medium-to-large organizations. The candidate should also have at least one year of experience administering Exchange Server environments that involve multiple physical locations, mixed connection protocols, and Internet messaging.

Requirements

MCSE candidates must pass six core exams listed below:

1. Four networking system (70-290, 70-291, 70-293, 70-294) exams
2. One client operating system (70-270, 70-210, 70-620) exam
3. One design (70-297 or 70-298) exam

And two messaging specialization (70-284 and 70-285) exams.

Target

Systems Engineer

Prometric

Indicative Fee*

640 USD

Certification Schedule**

* Fees are exclusive of VAT and wire transfer fee

** Fees and schedules are subject to change without prior notice, please get in touch with Authorized Testing Centers through contact details below

Recommended/Preparatory Training

1. MCSA/MCSE Self-Paced Training Kit: Managing and Maintaining a MS Windows Server 2003 Environment (Exam 70-290)
2. MCSA/MCSE Self-Paced Training Kit: Implementing, Managing and Maintaining a MS Windows Server 2003 Network Infrastructure (Exam 70-291)
3. MCSE Self-Paced Training Kit: Planning and Maintaining a MS Windows Server 2003 Network Infrastructure (Exam 70-293)
4. MCSE Self-Paced Training Kit: Planning, Implementing and Maintaining a MS Windows Server 2003 Active Directory Infrastructure (Exam 70-294)
5. MCSA/MCSE Self-Paced Training Kit: Installing, Configuring and Administering MS Windows XP Professional, 2nd Edition (Exam 70-270)
6. MCSA/MCSE Self-Paced Training Kit: MS Windows 2000 Professional, 2nd Edition (Exam 70-210)
7. MCTS Self-Paced Training Kit: Configuring Windows Vista Client (Exam 70-620)
8. MCSE Self-Paced Training Kit: Designing a MS Windows Server 2003 Active Directory and Network Infrastructure (Exam 70-297)
9. MCSE Self-Paced Training Kit: Designing Security for a MS Windows Server 2003 Network (Exam 70-298)
10. MCSE Self-Paced Training Kit: Designing Security for a MS Windows Server 2003 Network (Exam 70-298) MCSA/MCSE Self-Paced Training Kit: Implementing and Managing MS Exchange Server 2003 (Exam 70-284)
11. MS Exchange Server 2003 Resource Kit
