Oracle 11i Applications Database Administrator Certified Professional

Acronym/Nickname

Certification Body
Oracle

Certification Level
Professional

Covered competencies

Certified Applications DBAs are able to effectively manage the overlying database applications, including file system management, installation, maintenance using AD utilities, patching and cloning. They are also proficient with the underlying database architecture and configuration, including managing the database instance, managing objects and storage structures, performing backup and recovery, monitoring, performance tuning and troubleshooting.

Description

Oracle Applications DBA Certified Professionals demonstrate the complete set of skills required for working independently as experts in this role. An Oracle Applications DBA assumes the role of a database administrator on Oracle9i Database or Oracle Database 10g, with a focus on E-Business 11i Applications.

Requirements

1. Must complete one of the approved instructor-led online or in-class courses.
2. Must pass the Applications DBA Fundamentals I exam
3. Must pass the Applications DBA Fundamentals II exam
4. Must pass the Oracle 11i Install, Patch and Maintain Applications exam
5. Submit the Hands On Course Requirement form
