

Oracle 9i Database Administrator Certified Professional

Acronym/Nickname		Certification Body Oracle	
Description		Certification Level Professional	
<p>Oracle 9i Database Administrator Certification combines training, experience, and testing to ensure that you have a strong foundation and expertise in Oracle9i Database techniques, including backup and recovery, performance tuning, and administration.</p> <p>By moving upward and earning OCP status, Oracle professionals demonstrate the complete set of skills that are required for working independently as an expert DBA. An OCP certification helps you translate your knowledge and skills into increased visibility through the market's most highly valued database benchmark program. The OCP DBA path requires four tests (two for OCA certification plus two more). Additionally, all newly starting OCP candidates are now required to complete one Oracle University hands-on course in preparation for their exams and for future roles as an Oracle technologist.</p>		<p>Covered competencies</p> <p>Successful candidates must be knowledgeable in:</p> <ol style="list-style-type: none"> 1. RMAN Incomplete Recovery 2. Basic Oracle Net Architecture 3. User-Managed Incomplete Recovery 4. User-Managed Backups 5. Basic Oracle Net Services Client-Side Configuration 6.
