

Acronym/Nickname		Certification Body Red Hat	
Description <p>The Red Hat Certified Engineer (RHCE) exam is performance-based evaluations of Red Hat Enterprise Linux system administration skills and knowledge. Candidates perform a number of routine system administration tasks and are evaluated on whether they have met specific objective criteria. Performance-based testing means that candidates must perform tasks similar to what they must perform on the job.</p> <p>Called the "crown jewel of Linux certifications," RHCE proves an individual's ability to configure networking services and security on servers running a Red Hat OS. RHCE was recently named the hottest certification in all of IT by CertCities.com.</p>		Certification Level	
		Covered competencies <p>Candidates must also demonstrate Red Hat Certified Technician-level skills and must be capable of configuring the following network services like HTTP/HTTPS, Web Proxy, SMTP, DNS, FTP, & SSH. For each of these services, they must be able to install the packages needed to provide the service, configure SELinux to support the service, configure the service to start when the system is booted, configure host-based and user-based security for the service.</p>	
		Requirements <ol style="list-style-type: none">1. Must complete the Red Hat Linux Essentials course2. Must complete the Red Hat System Administration course OR must complete the Red Hat Linux Administration course and must pass the Red Hat Certified Technician exam3.
